Before you meet:
Write down your concerns and points to raise. Consider taking a friend or partner to make notes so you can concentrate on the conversation.

You, or your child’s school are concerned that your child may have some kind of special need

Meet with your child’s class teacher and/or SENCo to discuss concerns

If your child has a medical condition, ask to see your school’s policy that complies with the Government’s Statutory Guidance Supporting pupils at school with medical conditions. Ask how these guidelines can be used to support your child, if necessary

If you disagree at any point, you can ask to involve the Disagreement Resolution service or speak to the Information, Advice & Support Services Network www.iassnetwork.org.uk

If your child’s needs are clearly severe, an EHCP assessment may be requested without the SEN Support stage (or conducted before school age)

Agree on a plan of action using the Assess, Plan, Do, Review cycle & decide together which external assessments will be needed

Make sure you meet the expert after they have carried out any external assessment on your child, so you can give them any additional information. You know your child better than anyone and your input is vital

If progress is made, continue the cycle of Assess, Plan, Do, Review. However, at any point, if you feel the interventions are not working, you can choose to apply for a statutory assessment for an Education, Health and Care Plan

When the report(s) have been received ask to meet with the class teacher and SENCo again to revise any interventions in the light of the report recommendations. Agree a date for initial review

On the review date, discuss with the teacher/SENCo how the interventions are working, any changes that need to be made and a further review date

There may come a point at which you agree your child has made sufficient progress and no further support is required. However, you can ask for SEN help again at any point if you think it is needed.

Where, despite the school having taken relevant and purposeful action to identify, assess and meet the SEN of the child or young person, the child or young person has not made expected progress, the school or parents should consider requesting an Education, Health and Care needs assessment.

An EHCP can be requested by parent, young person, teacher or anyone else concerned about the child’s SEN

When your application has been received, you will be asked if you think you might need assistance from an Independent Supporter to help you through the process. They are not connected to the local authority and can be supplied by a local non-profit organisation or by the local information, Advice & Support Service (formerly Parent Partnership), depending on the area you are in. The IS will help to coordinate the process and provide help and support to your family during this time.
