

# SEND Tribunal Figures, England 2015

Figures include appeals against both statements and EHCPs

## Registered appeals

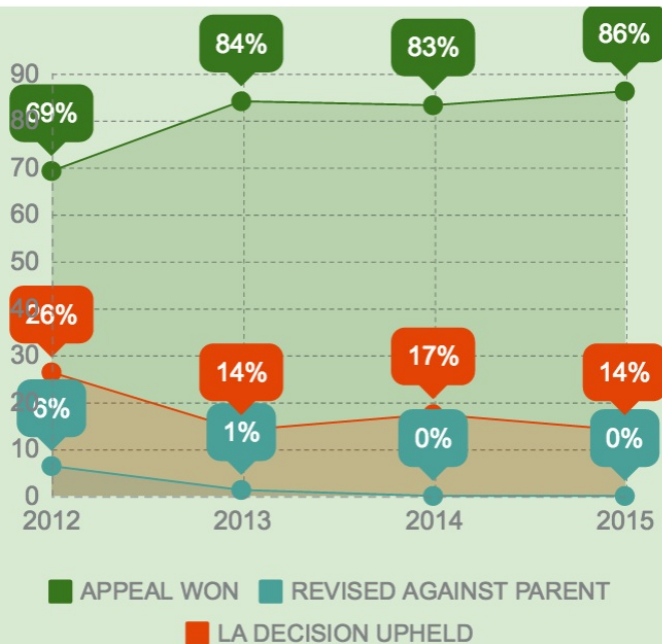

- Most appeals are settled before they reach Tribunal.
- The drop in appeals in 2015 may reflect legislative change & delays in assessment decisions & final EHCPs experienced in many places.
- Most cases to get to the SEND Tribunal are won by parents

## Appeal Outcomes %

When an appeal is heard by the SEND Tribunal, the parents most often win - and that percentage has increased over time

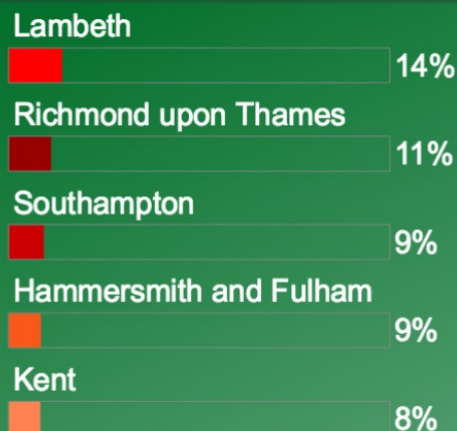

Perhaps something for LAs to remember before spending public money on appeals?

35% of all appeals related to children with ASD

LAs with most appeals registered against their decisions
